PRFA — ABM1— ABM1 TASK 1 MOBILE

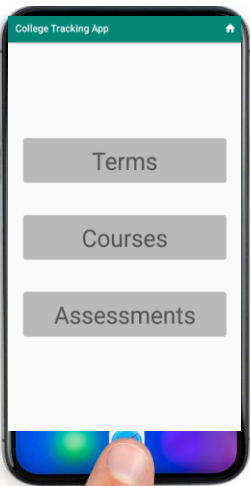

After a long weekend of studying and notetaking. Notes are spread across the desk, unsaved on desktop computer, and it's the 5th time you have lost your train of thought and have to pull up your colleges website to get your assignment information. Thankfully you found a way to make organization of your studies easier.

Now I just have to put all this Info on my phone to make it Portable!

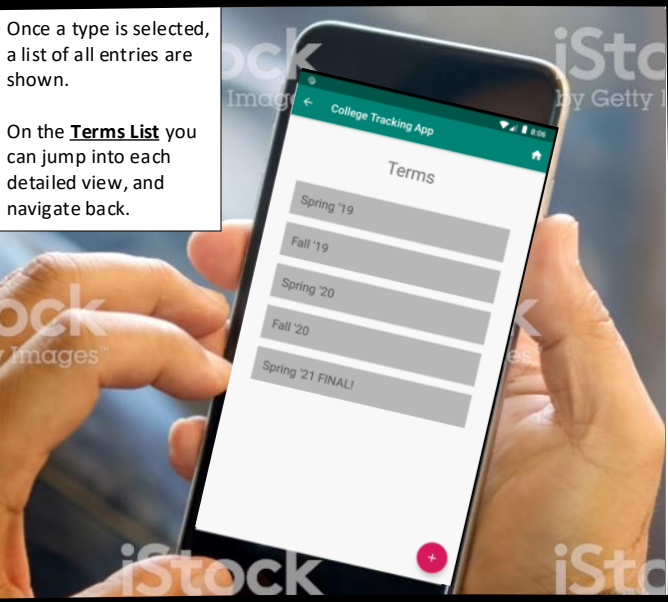

The app that can make this process even easier.. is called the College Tracking App!

I can jump right into any Term, Course, and Assessment, right from the **Home Screen**. This helps to cross the hurdle of having to navigate from the top down (Term > Course > Assessment)

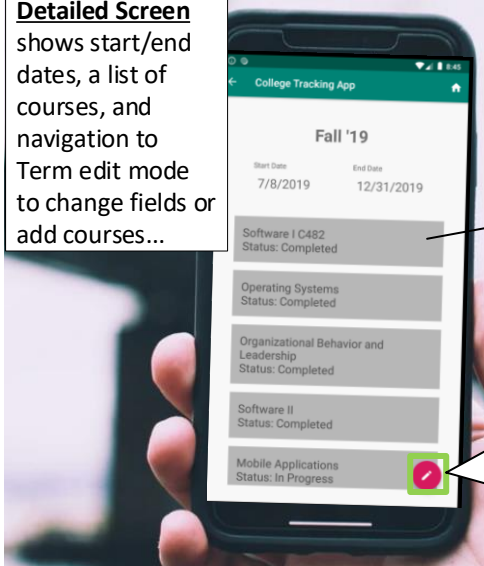

Once a type is selected, a list of all entries are shown.

On the **Terms List** you can jump into each detailed view, and navigate back.

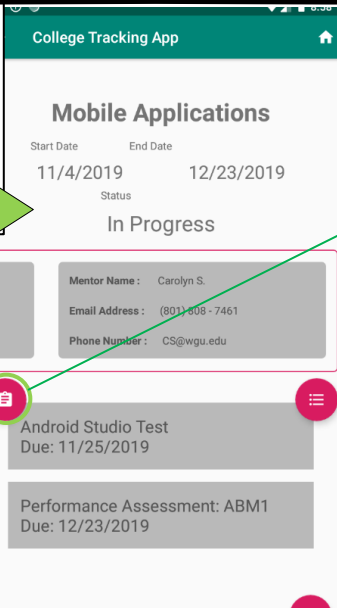

Each **Term's Detailed Screen** shows start/end dates, a list of courses, and navigation to Term edit mode to change fields or add courses...

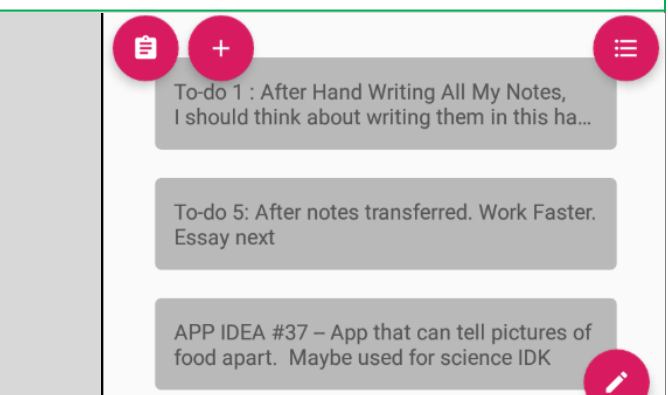

Edit Button for **Term Edit Screen**

Clicking a course will pull up the **Course Detailed Screen** that has course related features, such as a list of mentors, a list of assessments, and all the course's notes!

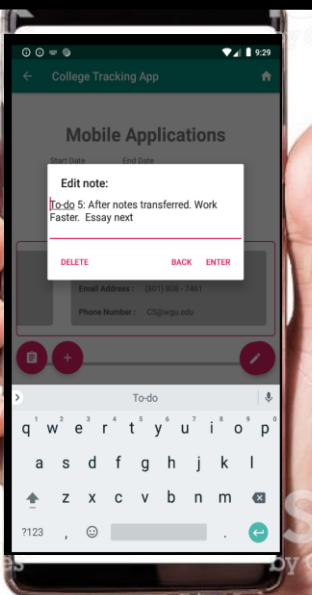

Notes and the List of Assessments can be swapped between with their buttons.

When clicking the Note button it shows a list of all notes for the selected Course and allows to quickly see changes that are made without switching screens.

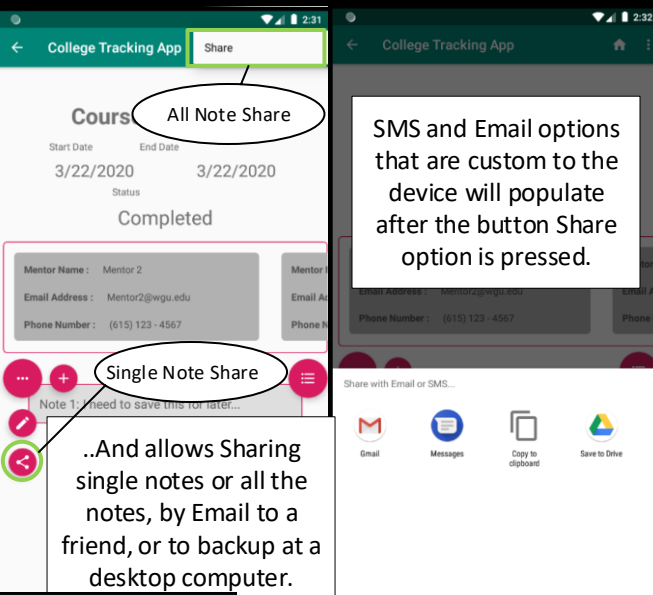

1: Tap*
2: Tap*
Note 1: I need to save this for later...
Note 1: I need to save this for later...
Selected Note Edit
Note Share

Clicking a note Opens Options, where the note list icon was, allows Editing, Deleting Any note for the course...

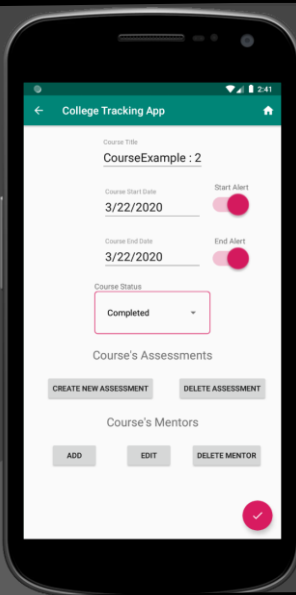

All Note Share

Single Note Share
..And allows Sharing single notes or all the notes, by Email to a friend, or to backup at a desktop computer.

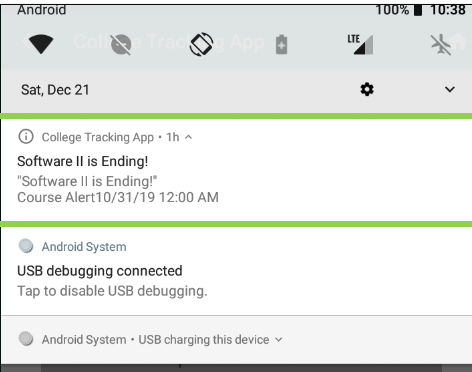

SMS and Email options that are custom to the device will populate after the button Share option is pressed.

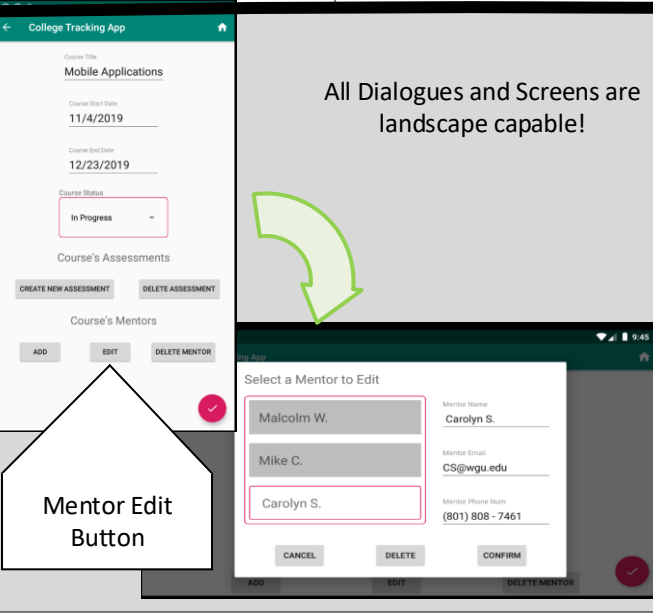

On the **Course Edit Screen** you can change of all visible fields and adding assessments. It also features Alert Tuning And Mentor Adding/Editing.

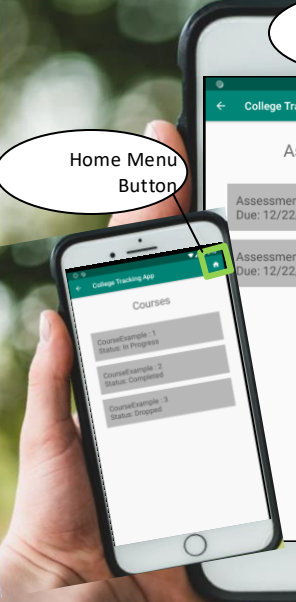

When Adding or Editing courses or assessments, notifications are automatically created for the assigned dates at **12:00AM** that day. If a mistake was made the notifications will be automatically deleted after the course or assessment are removed. Receiving notifications can be disabled through android notification channel control or through the edit screens' Alert Switches.

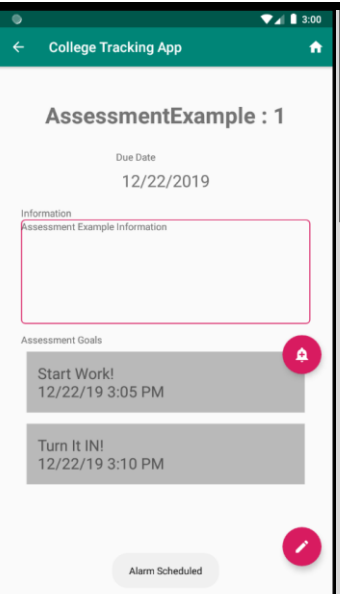

All Dialogues and Screens are landscape capable!

Mentor Edit Button

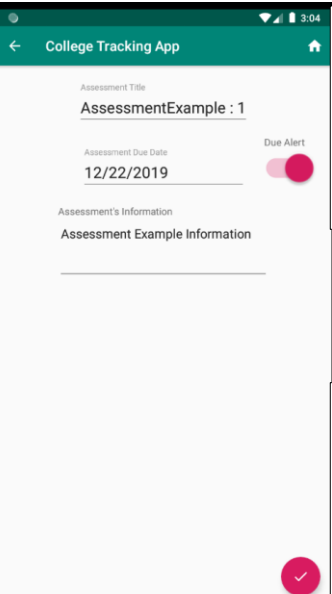

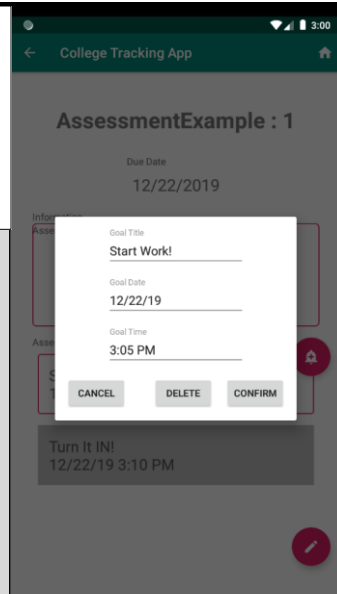

Each Screen has a home Button that allows traversal back to the home screen without having to back out of all the pages. Making it easy to select an Assessment from the **Assessment List** which you forgot which course it was in. Or Even a Course from **Course List**

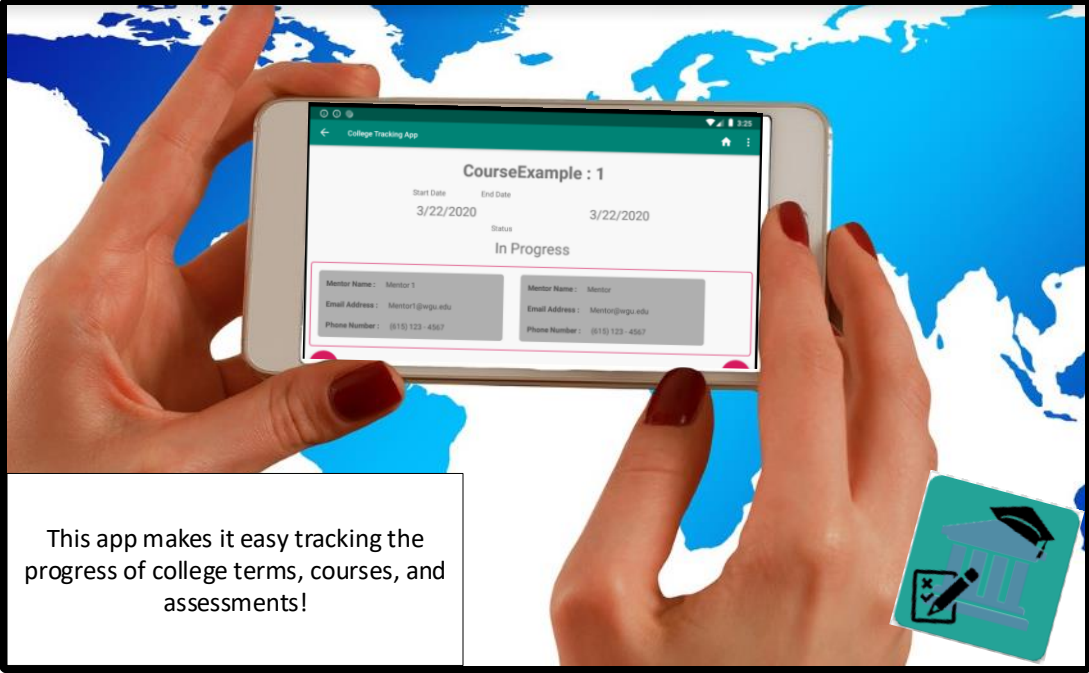

After the Selection, we are in the Detailed Assessment Screen.
Where Goal Alarms, Assessment Due Date, and Information are displayed.

Clicking an Alarm allows Editing and Deleting.
Time and Date are customizable.

Assessment Editing Screen

All the Assessments Editing Features can be found with the same button as the Term and Course Detailed Screens, with the Edit Button in the bottom right.

This app makes it easy tracking the progress of college terms, courses, and assessments!
